Mai sus regasiti oferta noastra RPR2 pentru accesorii semiremorca / prelata. Produsele sunt fabricate in U.E., conform standardelor si normelor Uniunii Europene. Preturile anexate sunt exprimate in Lei (RON) si nu includ TVA si nici costul de transport. TVA-ul este de 19% si se va factura conform Codului Fiscal in vigoare. Produsele sunt disponibile pentru expediere intre o zi si 10 zile lucratoare, in functie de stocul existent la momentul comenzii. Pentru produse aduse si/sau produse la comanda, termenul de productie / expediere va fi confirmat la momentul comenzii. Dimensiunile sunt date in milimetri (mm), cu exceptia celor la care este specificata dimensiunea in centimetri (cm).

Preturile oferite sunt pentru B2B (en-gros), acestea fiind valabile doar pentru cantitatile (numarul de bucati) specificate la fiecare produs, adica pentru o cutie intreaga, numarul de bucati / cutie pentru fiecare produs fiind specificat in coloana respectiva ("Buc. / Cutie"). In cazul in care ambalajul contine o singura bucată / rola, specificat in coloana de cantitate, pretul oferit este valabil pentru 1 buc. Daca in tabel nu este specificat numarul de buc. / cutie, cantitatea minima va fi specificata / confirmata la momentul comenzii.

Oferta este valabila in limita stocurilor disponibile, pana la noi eventuale cresteri de costuri ale materiei prime si deci ale costurilor de productie, in acest din urma caz oferta actualizandu-se in consecinta (anul trecut au fost multiple cresteri de costuri de productie, datorate in principal lipsei de materii prime). Anumite culori sau cantitati mari pe un tip de produs, se pot aduce / produce la comanda. Fiind produse in Europa cu materii prime, finisaje si calitate premium la momentul actual, pentru a putea obtine si pastra pretul bun, competitiv fata de alte produse de calitate inferioara de pe piata, comenzile se achita cu OP in avans sau cu ramburs la livrare doar in cazul comenzilor mici de sub 1000 de lei (cu exceptia celor ce contin produse ce se aduc / produc la comanda, caz in care se achita tot in avans cu OP).

Datorita calitatii materiei prime, a proceselor de fabricatie si a finisajelor, produsele oferite sunt astfel mult mai durabile, mai fiabile si chiar mai aspectuoase, putand astfel oferi o garantie superioara clientului final in privinta calitatii si durabilitatii lor, cat si a lucrarilor si serviciilor prestate, in cazul carosarii si confectionarii sau reparatiilor de prelate.

Pentru comenzi sau detalii suplimentare, nu ezitati sa ne contactati pe e-mail: vanzari@reperautotrans.ro, la telefon sau pe Whatsapp : 0771683556 sau sa ne vizitati magazin-ul on-line: <https://reperautotrans.ro/>. Asteptam cu drag raspunsul si comenzile dumneavoastra.

Cu respect,
Ing. Roxana Voit
